**Macular Degeneration:
Age-Related
Vision Loss**

**THERE IS SOMETHING
YOU CAN DO NOW!**

MACULA THERAPY FORMULA™

**CREATED BY
EYE DOCTORS
FOR THEIR PATIENTS**

What Role Do Vitamins Play in Vision?

Macula Therapy Formula™

Formulated by a low-vision optometrist and a doctor of nutritional medicine, **Macula Therapy Formula** is a comprehensive, all-in-one formulation with eye-specific ingredients providing powerful support for vision and retinal health.*

Macula Therapy Formula™ Essential Omega Dietary Supplement is an enteric coated, innovative formula, that greatly **reduces the risk of GI discomfort & “fish burps”** by having our fish oil digested in the small intestine rather than in the stomach. Studies suggest that genetically related family members may delay or prevent the onset of Age Related Macular Degeneration by taking lower doses of antioxidants.

Are my FAMILY MEMBERS at RISK?

THE FACTS:

- There is an increased risk for those most closely related genetically;
- Off-spring have increased risk of developing AMD
- Environmental factors, such as smoking & obesity, add to vulnerability for AMD
- **Macula Therapy Formula™** is formulated to reduce the risk of developing AMD.

* These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

What is Macular Degeneration?

Age-Related Macular Degeneration is a chronic non-curable disease that causes loss of central vision. It is the most common cause of irreversible blindness in older adults.

The “dry” form causes loss of vision from the breakdown of cells in the macula part of the retina. There is no medical treatment.

The “wet” form causes loss of vision from fluid leakage of abnormal blood vessels behind the macula. Treatment is aimed at stopping the fluid leakage.

Will Vision Vitamins, Inc. be there for me in the future?

Yes. Our company is committed to delivering the best product to help maintain your current level of vision and prevent further vision loss. **Macula Therapy Formula™** contains all the vitamins and nutrients in the amounts necessary as identified in the most current research in the field. **We are proud that our formula, which consists of USP -grade ingredients, changes to reflect the most current scientific research in the field.**

Ingredients in Macula Therapy Formula™*

Vitamin A as retinyl palmitate	5000 iu
Vitamin C	452 mg
